Nicholas Beasley
Web Developer

OBJECTIVE

I aim to become a Web Developer with a reputable company that encourages teamwork, creativity, and continued learning where I have variety in my day. I have spent the last six years working in a tech store and look to convert my troubleshooting experience into skills beneficial in the development industry. I am seeking employment, where I am currently located, in Evansville, IN or would enjoy working remotely as well.

EXPERIENCE

Solutions Specialist, Verizon Wireless **2016 - 2022**
- Successfully implemented solutions for a wide array of cellular customers, creating personal connections to make tech look simple.
- Performed troubleshooting on iOS, android, Bluetooth and Wi-Fi electronics, as well as Verizon software and POS submitting service tickets as required.
- Provided training for new employees through hands-on experience and promoting a culture of continuous improvement.

Manager, Mark's Mattress Outlet and Fireworks. **2015 - 2016**
- Obtained new sales tactics and processes in or to generate maximum amount of sales to potential buyers.
- Worked with Point of Sales, QuickBooks, and Microsoft Office applications.
- Worked independently on most occasions while selling, pricing, ordering new inventory, and working with other managers to coordinate sales and product transfers across other Mark's locations.

Inventory Specialist, Walmart Super-center **2014 - 2015**
- Documented inventory using electronic database. Aided management with product display.
- Maximized customer service while managing time wisely to meet merchandise stocking deadlines.

Campus Recreation Assistant, USI **2012 - 2014**
Security Personnel, Oakland City University **2010 - 2012**
